

Celeste Sippel

Largo, FL • celestechristine@gmail.com • 831-595-9320 • [linkedin.com/in/celeste-sippel](https://www.linkedin.com/in/celeste-sippel)

Tampa-based web developer and former firefighter with a passion for building apps that increase efficiency and profitability for business and public safety organizations. I thrive on challenging projects that require both collaborations with teammates and working on my own. Quick to find the humor in life's ups and downs, I love to make people laugh. Constantly learning and always curious, I enjoy mastering new skills.

SKILLS

Front-End: HTML, CSS3, Flexbox, Sass, Bootstrap, JavaScript, React /React-Hooks

Back-End: C#, .NET Core, ASP.NET Core, REST API, SQL, PostgreSQL, Entity Framework Core

Tools: Git, GitHub, Slack, Trello

PROJECTS

- **Color Picker** ([GitHub repo](#) / [live site](#)) - Built a simple web app with React using hooks and functional components that randomly selects an HSL color value when the page is loaded and allows the user to adjust the hue, saturation, and lightness of the color.
- **Client Website** ([GitHub link](#)) - Custom web app built React frontend and .Net Core backend utilizing three RESTful API calls to allow for collection of follower data, customer ability to update future live events, and accept booking requests.
- **TV Guide** ([GitHub repo](#) / [live site](#)) - Member of group project building a front-end React app that displayed TV data similar to IMDB. Built various pages including cast, credits, and crew pages using RESTful API.
- **Minesweeper** ([GitHub repo](#) / [live site](#)) - Minesweeper clone in HTML/CSS, JavaScript, React, and Axios.
